About FSC® trademarks and this quick guide

Labelling and promoting with FSC trademarks highlights your achievements in responsible sourcing of forest-derived materials and informs consumers and clients that their purchasing choices contribute to taking care of the world’s forests. The FSC trademarks are the primary communication tools for FSC certificate holders to demonstrate that their products meet the standards set by FSC.

This trademark quick guide was developed based on the FSC Trademark Standard 50-001(V2-0).

Compliance with this standard is mandatory for all FSC certificate holders making use of the FSC trademark. This guide provides the core information extracted from the trademark standard 50-001 with visual examples to help trademark users communicate their commitment and achievements in a simple way. It does not, however, cover all aspects of trademark use. Therefore, should queries arise, please refer to FSC trademark standard 50-001 (V2-0) for detailed information and trademark rules in conjunction with this quick guide.

DOs and DON’Ts of FSC® trademarks

DOs

Use text line with license code to promote your certification on business cards e.g. ‘We are FSC® certified (FSC® C######)’

Always identify clearly which products are FSC certified and which are not, when promoting with FSC trademarks. See 6.1 and 6.2 in FSC-STD-50-001 for trademark use in invoices and catalogues.

Use of the promotional panel or only the logo and license code, if preferred, on promotional items, such as t-shirts, mugs, pens, vehicles, etc.

DON’Ts

Do not use the FSC logo or ‘Forests For All Forever’ marks for promotion on business cards.

Do not use the FSC trademarks together with the marks of other forest certification schemes implying equivalence or in a way which is disadvantageous to the FSC trademarks in terms of size or placement.

Do not include FSC marks on a promotional item made fully or partially of wood unless it qualifies for labeling.

The FSC logo and ‘Forests For All Forever’ marks may appear on their own on products or in promotional material in addition to the FSC on-product label.

*Disclaimer: ‘Happy Forest Certification’ and ‘Our Wood Company’ are fake examples created for this publication. Any resemblance with reality is purely coincidence.

Placement of the FSC® trademarks

They may not be placed on photographic or strongly patterned background which interferes with or goes through the design, or could be misleading as to what is certified.

Please respect the exclusion zone around the label, logo and panel.

Logo is independent of other branding.

Use of the logo on a regular patterned background.

Use of the logo in a circle.

Misleading – logo used in combination with other branding.

Use of the logo on a patterned background that goes through the label.
